ABSTRACT

The health and learning potential of Colorado's children are enhanced by the benefits of several child nutrition programs. The oldest and largest of these programs is the National School Lunch Program (NSLP), which served an average of more than 268,000 meals per day in October, 1992. Other programs include the School Breakfast Program (SBP), which served an average of more than 32,000 meals per day in October, 1992; the Special Milk Program for children without access to the NSLP or SBP; the Summer Food Service Program for Children; and the Nutrition Education and Training Program for teachers, students, food service personnel, and parents. In this booklet, a description of Colorado's child nutrition programs is followed by a presentation of statewide data on average meal prices, average per plate costs, trends in meals served through the NSLP and SBP, food commodities purchased in Colorado for national distribution, and the economic impact of child nutrition programs on the Colorado economy. The bulk of the report consists of tables presenting data for the state's school districts that are grouped according to setting: core city, Denver metro, outlying city, outlying town, recreational, rural, small attendance, and urban-suburban. The tables indicate: (1) district membership; (2) average daily lunch participation; (3) total percentage of children participating; (4) the number of schools providing lunch, breakfast, and special milk programs; (5) the number of sites with kitchens and walk-in or carry-out facilities; (6) breakfast and lunch prices; and (7) costs included in per-plate costs. DESCRIPTION OF PROGRAMS

The health and learning potential of Colorado's children are enhanced as they enjoy nutritional benefits from the Child Nutrition programs. More than 50 million meals are served annually to Colorado's children in the National School Lunch Program, School Breakfast Program, Special Milk Progam, and Summer Food Service Program for Children.

These federal programs are administered at the federal level by the Food and Nutrition Service, an agency of the U.S. Depart–ment of Agriculture. State education agencies and local school food authorities administer the programs at the local level.

NATIONAL SCHOOL LUNCH PROGRAM

The National School Lunch Program (NSLP) is the oldest and largest of the Child Nutrition programs. It is a federally assisted meal program that provides balanced, low–cost or free lunches to millions of children nationwide each school day. Schools that choose to participate in the lunch program receive cash subsidies and donated commodities from the U.S. Department of Agriculture for each meal they serve. In return, they must serve lunches that meet federal requirements, and they must offer free or reduced price meals to eligible children.

Additional reimbursement is provided for each lunch served free or at a reduced price to eligible individuals. Children from families with incomes at or below 130 percent of the poverty level are eligible for free meals. Children between 130 percent and 185 percent of the poverty level are eligible for reduced price meals. The reduced price shall not exceed 40 cents for lunch and 30 cents for breakfast. Children from families over 185 percent of poverty pay a full price established by each school district.

In addition to financial assistance from the United States Department of Agriculture, donated food assistance, helps to support the infrastructure of the program. Schools are entitled by law to receive 14 cents in commodity foods, called "entitlement" foods for each meal they serve. In addition to these foods, schools can receive certain additional commodities known as "bonus" commodities, and are available from surplus stocks purchased by USDA under its agricultural price support programs.

Since 1946, the National School Lunch Program has made it possible for schools to serve appealing lunches designed to meet the needs of children. Schools participating in the program must meet a "meal pattern," established by the Department of Agriculture, that offers students specific minimum amounts of five food items: meat or meat alternate, bread or bread alternate, milk, and two fruits and/or vegetables.

These meals make an important dietary contribution by providing approximately one–third of the Recommended Dietary Allowances (RDA), vital to a child's mental and physical development. The RDA's are those amounts of nutrients considered adequate to meet the known nutritional needs of practically all healthy persons in the United States.

SCHOOL BREAKFAST PROGRAM

Several studies have indicated that a child's ability to learn and perform academically is hindered by the lack of an adequate breakfast. The School Breakfast Program provides a nutritious morning meal. The program offers financial assistance similar to the NSLP. The meal pattern

DESCRIPTION OF PROGRAMS

is designed to provide 25–33 percent of the child's Recommended Dietary Allowances.

SPECIAL MILK PROGRAM

The Special Milk Program offers milk to children who do not have access to the National School Lunch or School Breakfast Program. This includes pre–school and kindergarten children attending split–session school; children attending schools that do not participate in the other programs; or children attending summer or year–round camps. Participating schools and institutions receive reimbursement from the federal government for each half–pint of milk served.

SUMMER FOOD SERVICE PROGRAM FOR CHILDREN (SFSPC)

The Summer Food Service Program funds nutritious meals and snacks for children in needy areas when school is not in session during the summer. In 1992, more than 16,000 children in Colorado participated in the program. Programs are operated by public and private nonprofit schools, public or private non–profit residential summer camps, and by units of government. Sponsors receive financial assistance, USDA donated foods, and are reimbursed for up to four meals a day.

Any child age 18 and under, or any person over 18 who has a disability and who participates in a program for the mentally or physically disabled, is eligible to receive meals through the Summer Food Service Program. This program continues the food assistance received during the school year under the National School Lunch and School Breakfast programs.

NUTRITION EDUCATION and TRAINING PROGRAM (NET)

In support of these valuable program goals, the Nutrition Education and Training Program (NET) offers nutrition training for teachers, students, food service personnel, and parents. Nutrition education audiovisuals are available, as well as nutrition education curriculums for various grade levels. In–service workshops for teachers and classroom presentations for students, emphasize current nutrition topics and blend nutrition education with other subject areas. Workshops provide intensive classroom and hands–on training opportunities for food service professionals throughout the state.

FINANCIAL

Cash assistance for the National School Lunch Program, School Breakfast Program, Special Milk Program and Summer Food Service Program for Children, is made available from the Food and Nutrition Service, United States Department of Agriculture.

These funds flow through to program sponsors as reimbursement for meals served, in accordance with the provisions from each of these programs. The State of of Colorado does not provide cash assistance to the sponsors of these programs.

The remaining funds to fully cover the cost of the programs comes from children's payments, district subsidies, or other local sources.

Program Scope

The average cost of producing a lunch is $1.67. The average price for a lunch at the elementary level is only $1; it is clearly a nutritional bargain.

The popularity of breakfast has increased dramatically in the past few years, thus providing more children the opportunity for a nutritious start to their school day.

AVERAGE MEAL PRICES
IN COLORADO
(Rounded average, 1992–93)

LEVEL	LUNCH	BREAKFAST
ELEMENTARY	$1.00	$0.50
MIDDLE	$1.25	$0.65
JUNIOR	$1.05	$0.55
SENIOR HIGH	$1.20	$0.65

AVERAGE PER PLATE COST
(1991–92)

COST AREA	LUNCH	BREAKFAST
FOOD AND MILK	$0.54	$0.47
LABOR	$0.82	$0.58
NONFOOD	$0.05	$0.05
OTHER DIRECT	$0.11	$0.06
INDIRECT	$0.15	$0.11
TOTAL	$1.67	$1.27

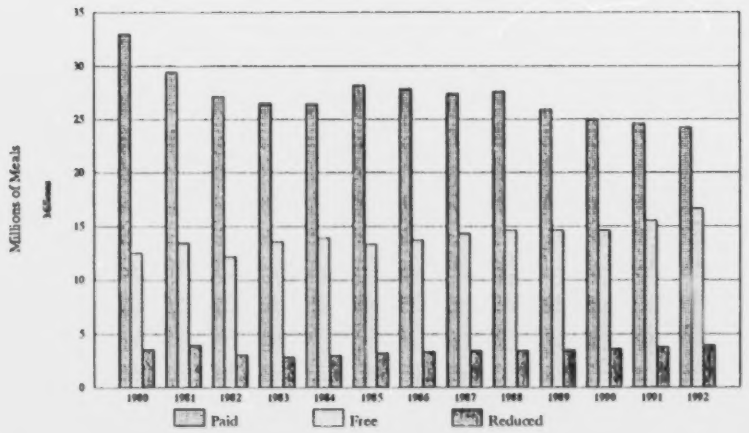
Program Scope
(continued)

Participation in the lunch program was severely affected by the 1980–81 congressional budget–cutting measures. Prior to that time, Colorado enjoyed a participation in excess of 277,000 lunches per day. Price increases and schools dropping from the program caused a decrease in participation of over 40,000 children per day. Recent trends show increasing participation since the budget cuts, but pre–1981 levels have yet to be recovered. This is especially apparent in the reduced reduced price category, where lunch cost rose from 10 cents to 40 cents for students.

AVERAGE DAILY PARTICIPATION
(October, 1992)

LUNCH:	
PAID	145,415
FREE	98,857
REDUCED	23,868
TOTAL	268,248

NATIONAL SCHOOL LUNCH PROGRAM
Number Served By Type



Program Scope
(continued)

Recent funding increases, outreach efforts, and meal pattern improvements have helped the School Breakfast program reach an all–time high of over 32,000 breakfasts per day in Colorado. Nearly 500 schools are offering the program recognizing its financial viability and contributing to the nutritional educational well–being of children.

AVERAGE DAILY PARTICIPATION

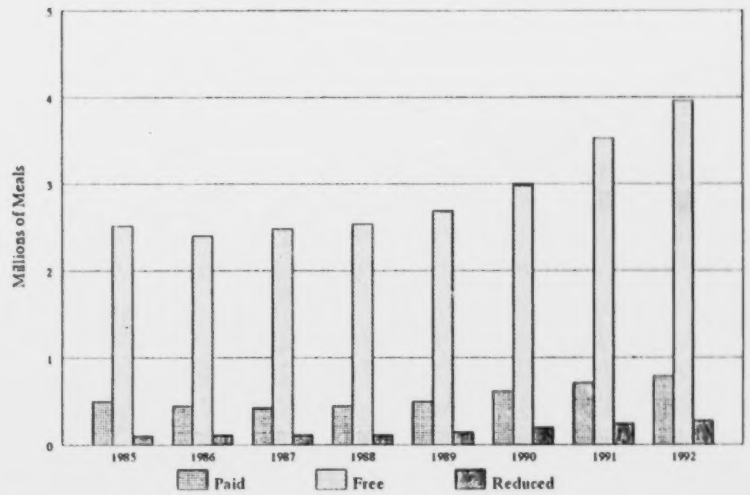
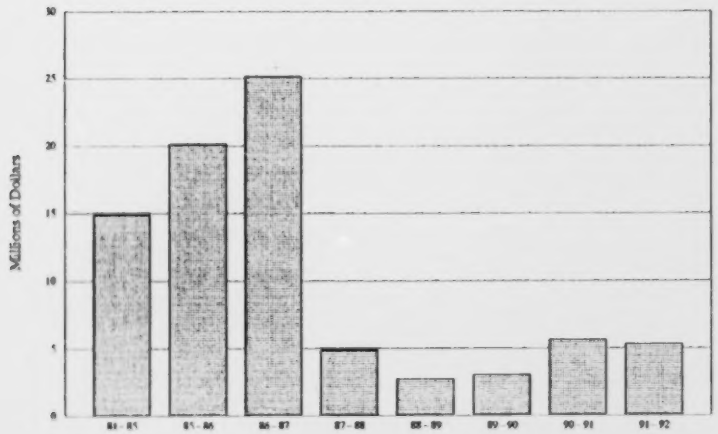
SCHOOL BREAKFAST PROGRAM
Number Served By Type



USDA Donated Commodities

The level of USDA donated commodities purchased from Colorado ranchers and farmers has shown a disturbing drop in recent years, from $25.1 million in 1987, to a low of $3 million in 1990. The decrease in the availability of "bonus" commodities nationwide is having a detrimental affect on food service budgets, as these foods had provided nearly 10 cents in added value to each lunch.

COLORADO COMMODITIES
PURCHASED FOR NATIONAL DISTRIBUTION



COLORADO COMMODITIES
PURCHASED FOR NATIONAL DISTRIBUTION
1991 – 92

COMMODITY		VALUE
APPLES	$	413,323

FLOUR	$	940,837
TOTAL	$	5,324,114

Economic Impact

Child Nutrition programs have a major economic impact, nationally and in Colorado. Over $42 million in federal reimbursement flows to Colorado school districts annually. These programs generate nearly $100 million in business each year, and employ over 3,000 school food service professionals.

ANNUAL DOLLAR IMPACT ON COLORADO ECONOMY (All Programs, 1991 – 92)

COST AREA	DOLLARS EXPENDED
